

Technology Fact Sheet for Mitigation

Subsectors	Technology	Description	Benefits	Challenges
Sustainable agriculture	Application of lime ⁱ	Measure involves application of lime on crop production	Measure neutralizes acidity, and sustainable use of land leading to reduction of shifting cultivation and hence less CO ₂ produced	High transportation cost for lime

ⁱ This fact sheet has been extracted from TNA Report – Technology Needs Assessment and Technology Action Plans For Climate Change Mitigation– Zambia. You can access the complete report from the TNA project website <http://tech-action.org/>
